

ProCool™ Water

Save time and hassle with a complete all-in-one ProCool water chiller solution including a quality plate cooler in a standing frame, a pre-plumbed water holding tank and a reliable chiller unit. All components have been designed and tested for optimum system value and performance. The mix and match system can be configured to meet your farming needs.

- ✓ Water chillers are available in a range of sizes, from 6hp - 15hp
- ✓ 3 sizes of tanks (regional variations: North Island 10,000 L, 25,000 L, 30,000 L; South Island 15,000 L, 25,000 L, 30,000 L)
- ✓ 12 sizes of Plate Cooler (single and double banked).

All components, fittings and polyethylene pipes can be included and delivered to farm ready for install, reducing installation time and cost. The tanks come prefitted with welded-in pipe connectors, making a quality installation simple and quick. The chiller units come with pumps for easy connection to your milk cooling circuit.
